

Individual Genealogy Research Request Form

An individual genealogy search is limited to the ancestors and descendants of one person (line) (for example, a grandfather, uncle, parent) of one surname, not everyone with that surname. We do our best to identify the grandparents, parents, children, and other spouses and children. Researching the families of both a husband and a wife would constitute two individual genealogy searches (one for the "Jones" family of the husband and one for the "Smith" family of the wife). We check all of our resources that apply to your line and make copies of all pertinent information.

Please provide as much information as you can. The more you tell us, the better we are able to locate your ancestor, not someone else with the same name and similar dates.

Print this page, complete the form, and mail it, with a check for **\$85** (*per surname*) payable to the S.C.H.S. to:
(Additional copies after the first 20 made will be billed)
